

# SUMMER INTERNATIONAL PROGRAM

## in Environmental Health Sciences

New Haven • Connecticut • USA

### PROGRAM DATES: JULY 18-29, 2022

Summer International Program in Environmental Health Sciences (SIPEHS) is a short-term summer program which introduces exciting emerging topics and research tools in environmental health sciences. General introductions to Yale School of Public Health will be covered as well.

### APPLY ONLINE: [YALESIPEHS.ORG](https://yalesipehs.org)

Beginning February 1, 2022

*Notifications will be sent upon acceptance.*

### TUITION \$2,500

The 2022 SIPEHS will be held virtually due to the pandemic.

### AREAS OF STUDY

- Climate and energy impacts on health
- Developmental origins of human disease
- Green chemistry solutions
- Understanding and overcoming environmental health disparities
- Novel approaches to assessing environmental exposures and early biomarkers of effect
- Applications and implications in major human diseases (e.g. cancer and COVID-19)

### PROGRAM DIRECTORS

Vasilis Vasiliou, Ph.D.  
Yong Zhu, Ph.D.
